

Past Life Regression Intensive

A spiritual and profound two days that will make a difference to your life and to your business!

Presented by **Georgina Cannon, CMI, BCH**

An ethical, structured and pragmatic certificate course based on the work of Henry Bolduc, Dr. Milton Erickson and Edgar Cayce. Presented by *Georgina Cannon*, Author and Director, Ontario Hypnosis Centre Clinic and School. Georgina and her clinic were instrumental in the recent CBC 3-part television documentary on past life regression where researchers confirmed lives in Dublin, Ireland, Chicago, India, and Germany. Filming was done over six months with 35 people facilitated into past lives for the cameras and researchers, with a final three people being chosen to travel with the film crew to complete the filming of their past life stories. Georgina has published a book entitled *Return: A Complete Guide to Past Life Journeys* which will be available at the convention.

The Past-Life Regression Training Intensive will add to, and build on what you already do or practice in your field. Because clients frequently “slip into” past or former lives when regressing to the initial sensitizing event, the professional hypnotist needs to understand how to work in this field in an effective, healing and ethical way. This is a soul journey process which includes forgiveness, healing and wisdom. We also cover life between lives and the journey and decisions made before birth. Karma and choice. This profound experience includes:

- * A two-day, intense, pragmatic, interactive and profound training program
- * Past Lives, between lives, the decision and journey to this life
- * Bringing forward the wisdom and understanding the relationships around your current life
- * Researching and healing for mental, physical or emotional pain
- * Forgiveness and letting go of negative Karma
- * Finding Soul Mates, Life Partners, Family Patterns
- * Group and one-on-one practice sessions
- * Extensive workbook includes history, background, scripts & how-to's

“For most of us, the journey of the self is a drive toward wholeness and completion. Physical or emotional pain and disharmony draw our attention to non-aligned aspects of our psyche until we are eventually forced to “right ourselves” and create a homeostatic balance. On a spiritual level, any journey we take through our past lifetimes is a movement toward karmic homeostasis. As we discover repeated patterns in our past lives, we

begin to work through them until we achieve ‘wholeness’ and find a place of balance and harmony.”

—**Winafred B. Lucas**
