

# WOMEN'S WELLNESS Hypnosis BEYOND REPRODUCTION

with Janice Manson, RN, CH

It seems women have cornered the market on some pretty challenging health issues. Ask any physician about which patients cause them the most frustration and chances are you will hear about more than a few conditions that are mysterious, seem to have no effective conventional treatments, and mostly occur in women. It's not those reproductive issues we are so familiar with, it's all those other overlooked conditions like fibromyalgia, IBS, and anxiety. All conditions that benefit greatly from hypnosis.

Every year American women spend more than \$34 Billion dollars out-of-pocket on alternative health solutions to ease their wellness woes. How would you like to have a bigger share of that pie?

A Chinese proverb states, "It is easy to get a thousand prescriptions, but hard to get one single remedy." This has been true for many women's health issues. These women are looking for remedies and hypnosis may be that elusive single remedy.

Women are an obvious and distinct market for hypnosis services tailored to their unique health needs and wellness desires. Women are looking for effective solutions to the problems that plague them. What you learn in this course can help you offer those solutions. With a growing interest in lifestyle and health, women are leading the pack in spending on health care, and they'll be spending it with you.

*"It's not enough to be good if you have the ability to be better. It is not enough to be very good if you have the ability to be great." ~ Alberta Lee Cox*

Find your greatness in the emerging field of Women's Wellness Hypnosis!

## Take-home materials

Every workshop participant will get all the diagrams, tables, scripts, tools, and forms as a part of the comprehensive workshop manual. In addition, participants will have online access to the slide presentations post conference.

***In this jam-packed 1 day course, you will learn:***

- \* The essential skills to make you sought after by female clients.
- \* Which clinical disorders are 2x, 3x, 10x and even 100x more prevalent in women than men.
- \* About the top 10 concerns for women's wellness that keep doctors awake at night and how you can bring them and their patients some relief.
- \* Marketing to wellness in a sick, sick world.
- \* The top three disrupters of a women's Mind-Body system that put her at risk.
- \* How your beliefs and specific emotions directly affect your energy systems and manifest as physical and mental issues.
- \* How the elements of the mind-body process, energy disruption and physical manifestations are related.
- \* The energy road map to guide you to which chakra energy points correspond to which base body systems and to which illness manifestations.

A popular speaker at the NGH, Janice Manson, is a Registered Nurse, and holds a Master's degree in Perinatal Nursing. Janice has extensive hypnosis, clinical and business training and experience. She has widely studied the principles of traditional and nontraditional medical and healing practices. By incorporating knowledge from these domains, Janice has developed innovative hypnosis techniques

and programs, which she applies within her full-time Women's Wellness Hypnosis practice, specializing in weight management, reproductive, and sexual health and wellness issues.

As a Clinical Hypnotist, Janice views her role as that of a change catalyst. She works with individual, community and corporate clients and offers 1:1 hypnosis sessions, speaking events, hypnosis-based workshops and personalized change programs that bring positive, lasting results.

Every year, in addition to her client work, Janice donates her nursing and hypnotist expertise and services to fundraise for a variety of organizations through service donations, hosting community education sessions and corporate lunch-and-learns.

## Who should attend?

Are you a talented hypnotist looking for a niche? Look no further. Every year women spend billions on alternative health care. Women's Wellness has emerged as a growing specialty field.
