

Working With Cancer Patients and Care for the Care Giver

Presented by Don Mottin

A one day exciting class that will teach you how to work in conjunction with the medical community. If you are ready to take your practice to the next level this class is a must. Yes, you will master the techniques to help cancer patients, but this class does not stop there. This program also covers heart disease, and Parkinson's disease, and other chronic illnesses. There are over 40 million people suffering from just cancer, heart disease, and Parkinson's.

The most overlooked type of session are those that are being conducted for the care givers. Too often the family members who are providing care for a loved one goes through very normal stages. They may mentally beat themselves up for not being there 24 hours a day. It is very normal for these remarkable people to feel like they could just scream if the relative requests one more thing. Two remarkable things take place when hypnosis is used. First, the family care givers realize that they are not alone with the feelings, and thoughts that they are experiencing. The second exciting step is when the care giver begins to accept the fact that they can actually do more for their relative by taking care of themselves. This is where the three session hypnosis program comes in. The people who are caring for those with chronic illnesses may need even more care than the patients. This class covers both relatives of the patients as well as the license professionals. There are literally millions of care givers in the country today. These wonderful professionals can experience burn out quicker than most other professions.

TWO IMPORTANT BONUSES

Written Authorizations

All participants will receive authorization to use all of the marketing material. Just a few of the items included in the marketing package are: letters, brochures, flyers, audio CDs, handouts, business cards, and even a full PowerPoint presentation. Material for both a 15 minute talk as well as an hour long seminar will be provided. Imagine having material specially designed to help you make contact, and secure hypnosis sessions from oncologists, physical therapists, registered nurses, occupational therapist, cardiologists, neurologists, certified nurse assistants, hospice workers, nursing homes, and many other who need to now take care of themselves. You will have all of the material to reach individuals in the medical community as well as the millions of family members caring for their loved ones. This license will only be issued to those that attend the live class. This program will not be available as a home study program, or in a video format.

THE Webpage Too often a hypnotist achieves specialized training, but there may not be a way of having potential clients, or license professionals make contact with them. Upon request all individuals who complete this class will be listed on a special HypnoCare webpage. There are no added fees for this service. Anywhere in the world it will be easy to find those with this special training.

This is a full turnkey operation. All scripts, and techniques are included in your workbook. All marketing material and outlines will be provided. A certificate and a full 8 hours of CE hours will be issued.

Don Mottin, CMI, DNGH, (Summerfield, FL), opened his first hypnotism office in August of 1980. Don has practical experience in every phase of hypnotism. He is the author of *Raising Your Children With Hypnosis*. He has developed specialty programs to help other hypnotists benefit from his years of experience.

Don Mottin's enthusiasm for the work he does is evident in his high energy teaching style. Over 1000 hypnotists from around the world take advance training with him each year. His success as an instructor can be attributed to the fact that he always delivers more than his students expect, because helping hypnotists achieve their goals is another of his favorite things to do.

Don has received the NGH educator of the year 1993 & 1996 & 2000; Most Outstanding Presenter 1994; Rexford L. North Award 1997; Charles Tebbetts Award 1998
