

Past Life Regression Technology

—Step-by-Step Methods to Make Past Life Regression
Effective for a Wide Variety of Issues

Presented by David Quigley, BCH

**Don't miss this opportunity to become the Past Life
Regression expert in your community!**

Past Life Regression has enormous power to change lives. This is an unprecedented opportunity to learn Past Life Regression from one of the foremost experts in the field, David Quigley, in a small experiential course. Whether or not you have previous training in Past Life Regression, you can revolutionize your practice with this course. It includes protocols and technologies for hypnotists that aren't found in any other training or course. In the wake of recent widespread media publicity, many clients are interested in exploring their past lives. Perhaps your clients have spontaneously recalled a past life event, where you felt insufficiently trained to help them understand and then use and apply this information to improve their life. With this course you can position yourself as a certified expert in the expanding field of Past Life Regression (PLR).

What you will learn:

- Why other methods of Past Life Regression (PLR) teaching are usually not effective in solving clients' past life traumas, and learn how to do it right!
- How to help clients access all of the creative, leadership and social skills they have developed over dozens of lifetimes, and to use these abilities every day in home, office and social environments.
- How to apply PLR to such issues as animal fears, fear of stepping into ones power as a leader or healer, fear of commitment in relationships, fear of childbirth, fear of heights, and many others.
- How to use PLR to help heal relationship co-dependency, and many other relationship issues.
- Unique and powerful induction techniques.
- How to get details of past life experiences even for clients who have difficulty seeing or remembering anything.
- Discover and integrate past life abilities into the present life.
- How to help clients discover and heal the underlying causes of their present patterns of suffering and pain.
- How to use emotional release methods to maximize results in a past life memory.

What You Will Receive

This class includes a thorough and professional workbook with a complete outline of the techniques and protocols covered in class.

Key Benefits

- You'll learn the latest advanced trance induction methods that can help even the most difficult clients to access past life memories.
- You'll learn of the recent research that proves the scientific validity of past life memories. And you'll learn how to help your clients determine whether their own past life recall is real or not.
- You'll learn how to resolve past life traumas successfully by changing the decision made after death, and rescuing the past life self from trauma, perhaps even bringing that past life self forward to the present life.
- You'll learn to help clients access their creative abilities in past lives (music, writing, business savvy, leadership, healing arts) and bring those abilities forward for use in the client's present life.

Who Should Attend This Course?

Anyone who wishes to learn basic methods of Past Life Regression Therapy, for themselves and for their clients. With this course, hypnotists can help their clients to easily find the sources of negative emotions and core beliefs in past life trauma, and to alter these memories & create positive resources. Even if you don't believe in "past life regression" your clients often come up with traumatic "past life" memories. Now you can help them, not only to examine these memories but to create new memories of success, power and fulfillment.
