Take your Past Life Regression expertise to expanded levels of advanced technique and profound effectiveness.

Presented by David Quigley

NOTE: Past Life Regression Training a pre-requisite

Many clients suffer with patterns of bad luck in their relationship with money, people, physical health, etc. This advanced course offers precise tools to help clients clear the consequences of Karma in ways that are powerful, and lasting. No other PLR training offers this advanced technology. You will also learn how to heal troubling or obsessive relationships whose roots are in past lives and how to heal inappropriate karmic attachment and unresolved relationship contracts from past lives and inter-life periods. This class will experience a group inter-life journey to the time of the pre-conception contract, where we decided on our life purpose and destiny. You will learn how to help clients discover, examine and change their pre-conception contract. And, you will experience and observe the technologies for yourself in supervised practice sessions.

- Help yourself and your clients to conquer the fear of death by exploring after-death states through personal experience.

Testimonials

"My most memorable experience was with a client who had excruciating pain in her chest off and on for many years. Although she had been to many doctors and specialists, they could find no physical explanation for her pain. After a very intense process, we had finally traveled back through six past lives, in which the injury to her chest was finally discovered to be self-inflicted with much emotional trauma and guilt attached. "I will never forgive myself for this wrong I have caused," were her famous last words in that lifetime and true to her word, each subsequent lifetime she received a fatal wound in the same spot. During my session with her, she was finally able to forgive herself and begin her journey of healing. The last I heard, she is still pain free!!"

Jade Luczynski, San Jose, California

"With David's help, I discovered that a large part of my life-purpose was to become a professional golfer. Now I have lowered my handicap by six points and am clearly moving in that direction. I live and work golf, and am writing a book about the mysteries of golf."

James Fish, Fairfax, CA

"Personal belief systems are the root of the personality and when a part of your life isn't working for you, you have the power to change it. By deliberately intending what you want in your life, you do not open yourself up to others' influences as much. Taking charge of your life is exhilarating and to me is the most creative act one can perform; the act of giving yourself total freedom."
