“The bottom line reason is that I came all this way from across the United States was simply because Don Mottin was teaching this course of instruction. He did not let me down in any fashion. His experience and humor were terrific and wonderful. Learning objectives were pronounced and concise during the presentations. Thanks and a job well done.”

“There are not enough superlatives to describe how valuable and enjoyable I found the course. Don and Dr. Damon make you feel special and important and by the end of the course you feel and believe you are too. The pace, energy and consistency are as valuable a lesson as the theory and experience. Not only do you feel like you have learned something special as importantly you feel part of something special too. Thank you for the lesson and the opportunity.”
