### Don't Miss Out!

Hello, this is Cal Banyan and I want to see you in this professional age regression certification course.

Here is why you must act and enroll in this special course. I usually reserve this high level of training only for those who are in my 7 or 10 day certification courses. But I thought it would be fun and beneficial to teach a three day course that focuses exclusively on the one hypnotic procedure that is the most powerful, and the most versatile.

I promise to not only teach you the fundamentals, but I will show you insider techniques that only 5-PATHers or those who work at my center learn. Mastering age regression, the way I'll show you how to do it, turns each client into a mystery novel, and you become the master detective, who can reliably find the cause of the problem in your client's past and resolve it masterfully. Take this certification course and I'll personally show you how.

*Cal Banyan*
