

Ultra-Height® Hypnosis

Learn How To Enhance Your Client's Natural Healing Ability
and Communication With The Super-Conscious Mind!

with **Gerald F. Kein**

Gerald Kein is well known as a Master trainer internationally for his practical teachings on the use of hypnotism in the clinical and nonclinical environment.

In this one-day training, he presents his own unique and specific techniques for establishing communication between the subconscious and superconscious minds; the benefits of which are infinite. The superconscious is many times referred to as higher conscious, higher self, etc.

Discover how to induce clients to the somnambulistic or coma state physically, while taking the mind to an Ultra-Height® of awareness. In this state, the client is able to assess not only what caused the issue in question, but also, exactly what is necessary for the hypnotist to completely eliminate it. This may become one of the most profound and rapid transformational interventions available to the hypnotism practitioner. The techniques presented enhance hypnotism along with touch & other alternative healing methods. This training is presented in a clinical step-by-step approach with demonstrations and scripts included.
